

About Course

InDesign is the best choice to design and publish multipage documents containing text, vector artwork, and images. Use precise grids and guides to position page elements and create polished layouts. Take advantage of professional typesetting features to format text consistently across pages, chapters, and publications.

InDesign can also publish content suitable for tablet devices in conjunction with Adobe Digital Publishing Suite. Graphic designers and production artists are the principal users, creating and laying out periodical publications, posters, and print media.

INDESIGN

CURRICULUM

① INTRODUCTION TO ADOBE INDESIGN

MANAGING THE INDESIGN ENVIRONMENT

Preferences

Customize your workspace

Manage document presets

Workspace and window arrangement

② DESIGNING DOCUMENTS

Create a new document

Alter a documents layout

Develop Master pages

Develop Layers

③ MANAGING AND FORMATTING TEXT

Add text

Edit text

Thread text

Change text threads

Placing a text document

Placing a Word document

4

FORMAT CHARACTERS

Format paragraphs with styles

Manage Styles

Based-on styles

Exchanging styles

Quick Apply

Text wrap

Rules

5

OBJECTS

Arranging, aligning and distributing

Transforming objects

Duplicating

Rotating

Object Styles

InDesign Snippets

Links panel

6

SPECIAL EFFECTS

Inner Shadow

Bevel and Emboss

Gradient Feather

Inner Glow and Outer Glow

7

LIBRARIES

Using InDesign libraries

8

UTILISING COLOURS AND SWATCHES

Utilize colour

Utilize swatches

Create a custom swatch

Apply swatches

Exchange swatches

9

MANAGING TRANSPARENCY

Apply transparency

10

GRAPHICS

File types

Importing options

Scale an image

Crop an image

Select inside a frame

Target graphic inside frame

Checking image resolution

Understanding actual against effective

The links panel

Downsampling images for Adobe PDF

11

EFFECTS

Inner Shadow

Bevel and Emboss

Gradient Feather

Basic Feather

Inner Glow and Outer Glow

Removing transparency

12

CREATING ADOBE PDF FILES

Prepare PDF files for web distribution

Export PDF files for printing

PDF/X-1a for global distribution

Understanding the trim, art and bleed boxes

13

MANAGING YOUR WORKSPACE

14

ADVANCED ZOOMING AND NAVIGATION

Advanced view options

Advanced navigation options

Focus selection for formatting

Changing tools (without changing)

15

TYPE

Advanced style sheet tips
Managing long documents
Hyphenation and justification
Tracking and kerning

16

LAYERS

Paster remembers layers
Multi-lingual export options
Locking layers
Duplicating layers

17

DRAWING

Shapes with the frame tools
Ellipses and polygons
Strokes and configurations
Accessing stroke easter eggs

18

WHERE TEXT MEETS GRAPHICS

Inline graphics
Anchored objects
Creating type outline
Using transparency

19

PRINT PRODUCTION

Checking object resolution and colour
Configuring the Links panel
Quick-edit of links content
Advanced preview

20 IMPORTING AND EXPORTING

Adding Excel or Word Tables
Import text options
Import graphic options

21 LONG DOCUMENTS

Using table of contents
Creating a table of contents style
Editing a table of contents
Creating hyperlinks from a table of contents
